

**Product Name**

STOP RUST

Technical Name

Corrosion inhibitor

Key Properties

- Counteract the formation of flash-rust
- Emulsified in water
- Based on an organic zinc complex and a low nitrite addition
- Although water dispersible, changes during the drying stage to a non-water dispersible or soluble zinc compound
- Could be used over already rust infected surfaces to stop temporarily the rust reaction

Recommended Uses

Suitable for multi surface work where a temporary rust prevention solution is needed

Type of Substrate

All kinds of metal

Finish

N/A

Coverage10m²/lt**Drying Time**

Touch-dry in 10 minutes
Re-coatable overnight
